The potaon was arenic. I will relate the circumstance as I heard it:

It appears that old Wilkinson was a man of bad character—a notorious hog thief—and Morris, the groom, which invested himself. He sent to the house of Sanders, and you will perceive, from what follows, how he revenged himself. He sent to the house of Sanders, who lives some two or three miles from him, and who was not at the time friendly, a hall of a shoatone torkey, three chickens, some chicken pie, butter, pound cake fee, enough to lest the family a week, all poisoned, even Last year the total receipts from the Canal and Rail-

DISASTER.

The English bark Junius, Wilson, master, from a port in Europe, bound to New-York, in ballast, and with 150 passengers on board, went ashore on Wednesday night at 11 o'clock, on West Hampton Beech, Loog Island, about half way between the outer bar and the shore. A passenger has come up to the City who left there yester-day morning, with a request from the Captain that a steamboat be sent to his assistance. The second mate was drowned in trying to effect a landing from the ship to the shore. The passengers were all on board the ship when our informant left—the weather was fine. The agent of the underwriters are to dispatch assistance to her immediately.
